Share of Life Insurance in incremental household financial saving

COVID 19 has inclined towards saving and purchasing all- encompassing life covers, which will likely to increase demand for life insurance in India.

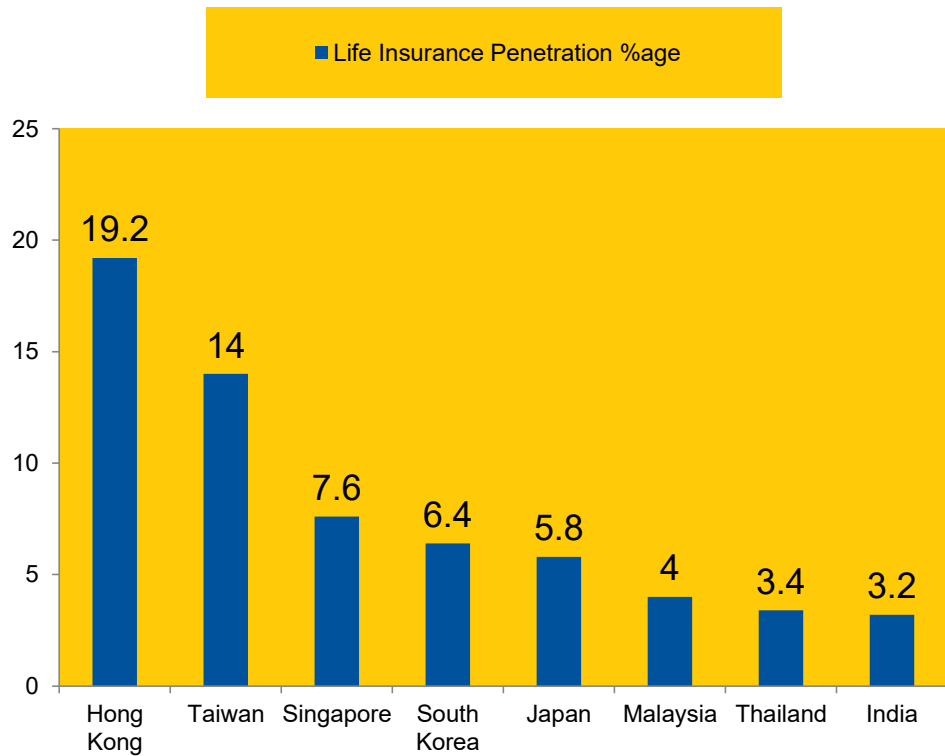

Source: CRISIL Research Report for LIC of India (Ministry of Statistics and Programme Implementation (MOSPI), RBI.) CRISIL Research

Protection gap for different countries

India's protection gap for India was 83% as of 2019, the highest among all countries in Asia-Pacific¹

Low Life Insurance penetration and insurance density² in India

Well Positioned to Ride the Growth in a Highly Underinsured Market Both in Term of Penetration and Density

Source: IRDAI Handbook 2020-21, ¹Insurance density is measured as ratio of premium (in US Dollar) to total population. ²Insurance penetration is measured as ratio of premium to GDP.

Household saving to increase

Household saving as percentage of GDP rose to 22.2% in fiscal 2021

Share of financial assets in overall savings to increase

While Households' saving in physical assets has declined to 59% in fiscal 2020 from 69% in fiscal 2012, financial savings has witnessed an uptrend to 41% in fiscal 2020 from 31% in fiscal 2012.

Share of Life Insurance in incremental household financial savings

COVID-19 HAS Prompted people to become more inclined towards saving and purchasing all – encompassing life covers, which is likely to increase demand for life insurance in India.

Source: CRISIL Research Report for LIC of India (Ministry of Statistics and Programme Implementation(MOSPI), RBI, CRISIL Research)

Increasing insurable population to fuel industry growth

India's Demographic Dividend

For 2021, India has largest share of young population in the world, with a medium age of 28 Years. About 90% of Indians will still be below the age of 60 years.¹

Income demographics

Rising Income level to make insurance products more affordable.

Strong growth in total premium for life insurance industry

Total premium has grown at 11% CAGR in last five years ending FY21. Amongst the different player groups, LIC, which holds the maximum 64% share in total life insurance premium.

Source: CRISIL Research Report for LIC of India (IRDAI Annual report, Company Reports, CRISIL Research)

Projected growth in total premium over next five years

INR Billion

Insurers to grow at 14-15% CAGR over the next five years. Consequently, the total premium is expected to grow by 2 times.

Disclaimer

Except for the historical information contained herein, statements in this presentation which contain words or phrases such as 'will', 'would', 'indicating', 'expected to' etc., and similar expressions or variations of such expressions may constitute 'forward-looking statements'. These forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements.

These risks and uncertainties include, but are not limited to our ability to successfully implement our strategy, our growth and expansion in business, the impact of any acquisitions, technological implementation and changes, the actual growth in demand for insurance products and services, investment income, cash flow projections, our exposure to market risks, policies and actions of regulatory authorities; impact of competition; experience with regard to mortality and morbidity trends, lapse rates and policy renewal rates; the impact of changes in capital solvency or accounting standards, tax and other legislations and regulations in the jurisdictions as well as other risks detailed in the reports filed L.I.C. of India, out holding company. We undertake no obligation to update forward-looking statements to reflect events or circumstances after the date thereof.

The assumptions, estimates and judgments used in the calculations are evaluated internally where applicable and have been externally reviewed. They represent the best estimate based on the Corporation's experience and knowledge of relevant facts and circumstances. While the management believes that such assumptions, estimates and judgments to be reasonable; the actual experience could differ from those assumed whereby the results may be materially different from those shown herein.

THANK YOU
